

*Plush & Company*

*More than a plush*

### Molto più di un peluche...

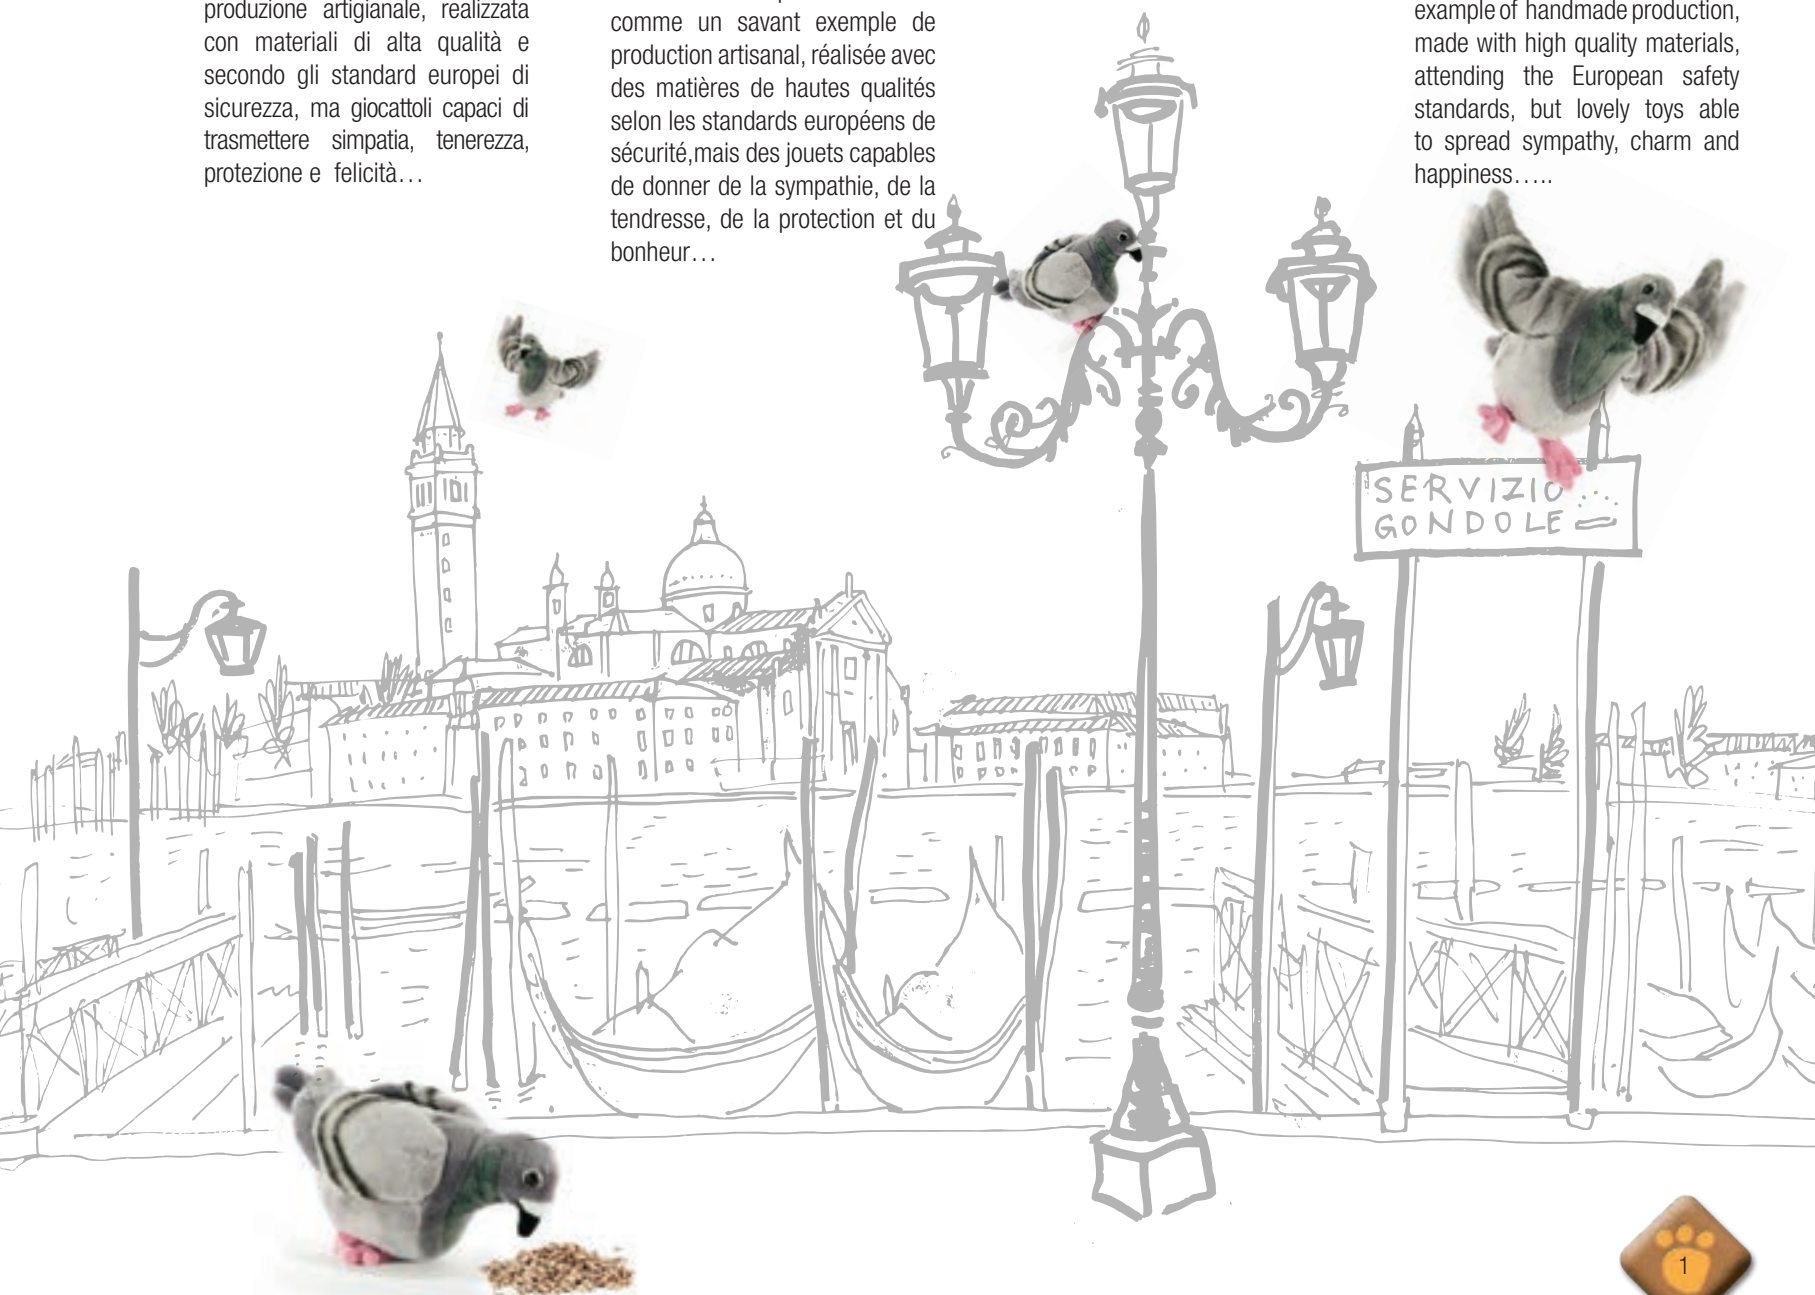

per chi, come noi, non li considera solo un sapiente esempio di produzione artigianale, realizzata con materiali di alta qualità e secondo gli standard europei di sicurezza, ma giocattoli capaci di trasmettere simpatia, tenerezza, protezione e felicità...

### Plus encore qu'une peluche...

pour ceux qui, comme nous, ne les considère pas seulement comme un savant exemple de production artisanal, réalisée avec des matières de hautes qualités selon les standards européens de sécurité, mais des jouets capables de donner de la sympathie, de la tendresse, de la protection et du bonheur...

### Much more than a plush....

for who that, like us, does not consider them just only a wise example of handmade production, made with high quality materials, attending the European safety standards, but lovely toys able to spread sympathy, charm and happiness.....

BABY 

**Molto più di un peluche...**

per chi, come noi, non li considera solo un sapiente esempio di produzione artigianale, realizzata con materiali di alta qualità e secondo gli standard europei di sicurezza, ma giocattoli capaci di trasmettere simpatia, tenerezza, protezione e felicità...

**Plus encore qu'une peluche....**

pour ceux qui, comme nous, ne les considère pas seulement comme un savant exemple de production artisanal, réalisée avec des matières de hautes qualités selon les standards européens de sécurité, mais des jouets capables de donner de la sympathie, de la tendresse, de la protection et du bonheur...

**Much more than a plush....**

for who that, like us, does not consider them just only a wise example of handmade production, made with high quality materials, attending the European safety standards, but lovely toys able to spread sympathy, charm and happiness....

## SIAMO MORBIDISSIMI E SOFFICI, NON POTRAI RESISTERCI!

E' scientifico: nei bambini l'abbraccio ha la funzione di rafforzare l'autostima, il suo effetto perdura negli adulti regalando un senso di sicurezza che argina la pressione della vita quotidiana. L'abbraccio aumenta il livello di serotonina, che migliora l'umore e accresce il senso di felicità, rilassa i muscoli aumentando la circolazione nei tessuti molli e ottenendo un effetto benefico.
